INDEX

VOLUME 28, 1952

A

Academy Plaque, First award of the, 548
Accessions to the Library, Recent, 119
Almy, Thomas P., Medical management of ulcerative colitis and regional enteritis, 693
Animals for scientific research, Statement concerning proposed legislation on supply of, Committee on Public Health Relations, 52
Annual Meeting, January 3, 1952
Presidential address, William Barclay Parsons, 125
Antibiotic therapy, Bacterial resistance as a factor in, Perrin H. Long, 809
Anuria, acute, Extracorporeal dialysis of blood in; importance of β-oxidation in the kidney tubules, I. Snapper, 621
Arrhythmias, cardiac, Importance of, Louis N. Katz, 294
Arterial occlusion, Medical management of acute and chronic, A. Wilbur Duryee, 241
occlusion, Surgical therapy of acute and chronic, Jere W. Lord, Jr., 259
Artificial kidney in the treatment of uremia, Use of the, John P. Merrill, 523
respiration, Recommendations on manual methods of, Committee on Public Health Relations, 421
Atherosclerosis, Diet and lipotrophic agents in, John W. Gofman, 279
Lipid metabolism and, Aaron Kellner, 11

B

Bacterial resistance as a factor in antibiotic therapy, Perrin H. Long, 809
Barach, Alvan L., Hylan A. Bickerman and Gustav Beck, Advances in the treatment of non-tuberculous pulmonary disease, 353
Beck, Gustav. See Barach, Alvan L., joint author
Bickerman, Hylan A. See Barach, Alvan L., joint author.
Blood vessels, Humoral and vasomotor controls of, Irvine H. Page, 131
Browder, Sue. See De Fries, Zira, joint author.
Brown, Samuel Alburtus, M.D. (Obituary), John J. Moorhead, 419
Bulkley (L. Duncan) Lecture, Recent advances in treatment of inoperable cancer, Lloyd F. Craver, 385

C

Cancer, inoperable, Recent advances in treatment of, Lloyd F. Craver, 385
Cardiac arrhythmias, Importance of, Louis N. Katz, 294
Cardiovascular disease, congenital, Surgical revision in, George H. Humphreys, II, 28
system, Role of the connective tissue in diseases of the, Paul Klemperer, 204
Cerebral palsy, Etiological factors in, George G. Deaver, 532
Cesarean section, Fetal and neonatal risks related to, William E. Studdiford and Wayne H. Decker, 640
Chemotherapy, modern, Paul Ehrlich and, Perrin H. Long, 344
Circulatory responses to life situations, Stewart Wolf, 168

Clinical Research Meeting, 1952
Announcement, 122, 191, 228
Clinical Research Meeting (abstracts)
Continuous intravenous drip of meperidine and scopolamine for relief of pains of labor, Samuel S. Rosenfeld, Bernard Lapan and Mortimer S. Weinstein, 545
Cortisone therapy of urticaria, Jeff Davis, 539
Criteria for the use of anti-coagulants in the treatment of acute myocardial infarction, Samuel Baer, William L. Heine and Sidney O. Krasnoff, 610
Dynamic changes in acid base balance during anesthesia, D. A. Holaday, D. Ma and E. M. Papper, 543
Effect of ACTH and cortisone on the tuberculin, Dick and Schick tests in essentially normal young men, Saul B. Appel, 541
Effect of subtotal gastrectomy upon external pancreatic secretion in dogs, Alexander Richman, Louis J. Lester and Franklin Hollander, 614
Effect on serum lipids of 1. weight reduction without marked fat restriction; 2. rigid fat restriction without weight reduction, Julius Pomeranze, Morris B. Green and Allen Goldbloom, 611
Electrogastrogram and its clinical significance, Edmund N. Goodman, 615
Estimation of insulin sensitivity by the modified glucose insulin tolerance test, Sydney S. Lazarus and Bruno W. Volk, 547
Evaluation of acute changes in blood volume from the intravascular biological decay curve of P^{32} tagged erythrocytes, Solomon A. Berson, Rosalyn S. Yalow, Abraham Azulay, Sidney Schreiber and Bernard Roswit, 606
Evaluation of vagus resection in the treatment of gastroduodenal ulcer, William J. McCann, Jr. and John L. Madden, 614
Experimental study of radiation pneumonitis, Herbert Lobsenz, Arthur Levine and Diran Seropian, 546
Fibrinolytic and anticoagulant effects of intravenous crystalline trypsin, Irving Innerfield, Alfred W. Schwartz and Alfred A. Angrist, 537
Increased xanthurenic acid (4, 8-dihydroxy-quinoline-2-carboxylic acid) excretion in normal and abnormal pregnancy, M. Wachstein and A. Gudaitis, 544
Investigation of coagulation defects using a modified prothrombin consumption test, Niel Wald, Murray Weiner and Leon N. Sussman, 609
Ligation of the hepatic and splenic arteries in the treatment of cirrhosis of the liver, John L. Madden, 613
Maximal-size vein grafts feasible in the replacement of experimental aortic defects, long term observations concerning the function and ultimate fate of the graft, Robert A. Nabatoff and Arthur S. W. Touroff, 616
Occurrence of "spontaneous" infections after the administration of cortisone and ACTH, William Antopol, Howard Quittner, Robert Gittler, Jack Dordick and Ivan Saphra, 540
Pilonidal sinus and cyst, an analysis of the results of surgical treatment in 229 consecutive cases, Paul W. Hoffert and Martin J. Healy, Jr., 612
Relationship of hypertension to the onset of coronary occlusion, Arthur M. Master, 608
Relationship of the ulnar styloid process to disabilities of the wrist joint following Colles' fractures, Frederick Lee Liebolt, 542
Shortening the immunization procedure in pollen allergy, experiments with 101 ragweed-sensitive subjects during 13 years, Mary Hewitt Loveless, 538
Studies on blood coagulation in acute myocardial infarction, Robert L. Rosenthal, 607
Treatment of pernicious anemia with massive parenteral doses of vitamin B-12, Edward H. Reisner, Jr. and Leo Weiner, 539
Colp, Ralph, Recent developments in the surgery of peptic ulcer, 785
Committee on Public Health Relations, Report on fluoridation of water supplies, 275
on Public Health Relations, Statement

concerning proposed legislation on supply of animals for scientific research, 52
on Public Health Relations, Statement concerning State Education Law, 118
on Public Health Relations, Statement on hospital morbidity reporting, 189
on Public Health Relations, Recommendations on manual methods of artificial respiration, 421
Connective tissue, Role of the, in diseases of the cardiovascular system, Paul Klemperer, 204
Consciousness, Meaning of, Israel G. Wechsler, 739
Craver, Lloyd F., Recent advances in treatment of inoperable cancer, 385

D

Deaver, George G., Etiological factors in cerebral palsy, 532
Decker, Wayne H. See Studdiford, William E., joint author.
De Fries, Zira and Sue Browder, Group therapy with epileptic children and their mothers, 235
Demartini, Felix. See Ragan, Charles, joint author.
Denny, Floyd W. See Rammelkamp, Charles H., joint author.
Dexter, Louis, Pathologic physiology of mitral stenosis and its surgical implications, 90
Diabetes mellitus, Notes on the history of, Laurence Farmer, 408
Diabetic, The pregnant, Paul Pedowitz and Edmund L. Shlevin, 440
Diet and lipotrophic agents in atherosclerosis, John W. Gofman, 279
Doe, Janet, Library of The New York Academy of Medicine, 197
Library publication fund committee, 192
Duryee, A. Wilbur, Medical management of acute and chronic arterial occlusion, 241

E

Ehrlich, Paul — as man and scientist, Selman A. Waksman, 336
and modern chemotherapy, Perrin H. Long, 344
Presentation of mementos of, Hans W. Schwerin, 335
Electrocardiographic effects of myocardial and pericardial injury, Charles E. Kossmann, 61
Electro-shock therapy in patients over 60 years of age, Results of, Curtis T. Prout and Donald M. Hamilton, 454
Elwyn, Herman, Hypertension and the changes in the fundus of the eye, 145
Endocrine disease, Advances in the diagnosis of, Louis J. Soffer, 592
Enteritis, Medical management of ulcerative colitis and regional, Thomas P. Almy, 693
Epileptic children and their mothers, Group therapy with, Zira de Fries and Sue Browder, 235

F

Facial nerve, Affections of the, Frank D. Lathrop, 796
Farmer, Laurence, Notes on the history of diabetes mellitus, 408
Flood, Charles A., Recent advances in medical treatment of peptic ulcer, 773
Fluoridation of water supplies, Report on, Committee on Public Health Relations, 275
Friday Afternoon Lectures
Advances in the diagnosis of endocrine disease, Louis J. Soffer, 592
Advances in the treatment of nontuberculous pulmonary disease, Alvan L. Barach, 353
Application of clinical psychological tests to a fuller understanding of somatic disease, M. R. Harrower, 573
Problems in the approach to the neuroses and psychoses in general practice, Lawrence S. Kubie, 555
Recent advances in the management of pancreatitis, acute and chronic, J. William Hinton, 425
Recent advances in medical management of peptic ulcer, Charles A. Flood, 773
Recent advances in treatment of inoperable cancer, Lloyd F. Craver, 385

Recent developments in the surgery of peptic ulcer, Ralph Colp, 785
Fundus of the eye, Hypertension and the changes in the, Herman Elwyn, 145

G

Gibbs, Edward N., Memorial Prize, Award of, 487
Gofman, John W., Diet and lipotrophic agents in atherosclerosis, 279
Gorham, L. Whittington, Public Health Research Institute of the City of New York, Inc., History of the Institute and Program of the meeting, 827
Gout, Metabolic defect in, DeWitt Stetten, Jr., 664
Graduate Fortnight, 1951
Circulatory responses to life situations, Stewart Wolf, 168
Contraction in the heart muscle fibre, A. Szent-Györgyi, 3
Diet and lipotrophic agents in atherosclerosis, John W. Gofman, 279
Edema and dyspnea of heart failure, Eugene A. Stead, Jr., 159
Electrocardiographic effects of myocardial and pericardial injury, Charles E. Kossmann, 61
Endocrine factors in hypertension, George A. Perera, 43
Humoral and vasomotor controls of blood vessels, Irvine H. Page, 131
Importance of cardiac arrhythmias, Louis N. Katz, 294
Lipid metabolism and atherosclerosis, Aaron Kellner, 11
Medical management of acute and chronic arterial occlusion, A. Wilbur Duryee, 241
Pathologic physiology of mitral stenosis and its surgical implications, Lewis Dexter, 90
Role of the connective tissue in diseases of the cardiovascular system, Paul Klemperer, 204
Surgery of acquired valvular disease, Robert W. Wylie, 106
Surgical revision in congenital cardiovascular disease, George H. Humphreys, II, 28
Surgical therapy of acute and chronic arterial occlusion, Jere W. Lord, Jr., 259
Treatment of some bacterial infections of the heart and pericardium, Thomas H. Hunter, 213
Graduate Fortnight, 1952
Announcement, 258
Evening lecture program, 417
Morning panel meetings schedule, 522
Program, 488, 550, 617, 688
Grokoest, Albert W. See Ragan, Charles, joint author.
Group therapy with epileptic children and their mothers, Zira de Fries and Sue Browder, 235

H

Halsted, the surgeon's preceptor, John J. Moorhead, 673
Hamilton, Donald M. See Prout, Curtis T., joint author.
Hantman, Irvin, Secretary otitis media, 817
Harris, Ruth C., Liver function tests in infancy, 721
Harrower, M. R. Application of clinical psychological tests to a fuller understanding of somatic disease, 573
Heart failure, Edema and dyspnea of, Eugene A. Stead, Jr., 159
muscle fibre, Contraction in the, A. Szent-Györgi, 3
and pericardium, Treatment of some bacterial infections of the, Thomas H. Hunter, 213
Hinton, J. William, Recent advances in the management of pancreatitis, acute and chronic, 425
Surgical management of ileocolitis, 714
Hospital morbidity reporting, Statement on, Committee on Public Health Relations, 189
Humphreys, George H., II, Surgical revision in congenital cardiovascular disease, 28
Hunter, Thomas H., Treatment of some bacterial infections of the heart and pericardium, 213
Hypertension, Endocrine factors in, George A. Perera, 43
and the changes in the fundus of the eye, Herman Elwyn, 145

Hyslop, George H., Intra-cranial circulatory complications of injuries to the neck, 729

I

Ileitis, regional, and ulcerative colitis, Pharmacology of newer agents employed in the treatment of gastrointestinal disturbances with special reference to, Fredrick F. Yonkman, 700
Ileocolitis, Surgical management of, J. William Hinton, 714
Infancy, Liver function tests in, Ruth C. Harris, 721
Influenza virus variation, Interpretation of the significance of, for the development of an effective vaccine, Jonas E. Salk, 748
Intra-cranial circulatory complications of injuries to the neck, George H. Hyslop, 729

J

Jessar, Ralph A. See Ragan, Charles, joint author.

K

Kast (Ludwig) Lecture, Lipid metabolism and atherosclerosis, Aaron Kellner, 11
Katz, Louis N., Importance of cardiac arrhythmias, 294
Kellner, Aaron, Lipid metabolism and atherosclerosis, 11
Kidney tubules, importance of β-oxidation in the; Extracorporeal dialysis of blood in acute anuria, I. Snapper, 621
Klemperer, Paul, Role of the connective tissue in diseases of the cardiovascular system, 204
Kossmann, Charles E., Electrocardiographic effects of myocardial and pericardial injury, 61
Kubie, Lawrence S., Problems in the approach to the neuroses and psychoses in general practice, 555

L

Lamont-Havers, Ronald. See Ragan, Charles, joint author.
Lathrop, Frank D., Affections of the facial nerve, 796
Library of The New York Academy of Medicine, Janet Doe, 197
Library Notes
  Available publications issued by or under the sponsorship of the Academy, 53
  Library publication fund committee, Janet Doe, 192
  Lists of recent accessions available in mimeographed form, 422
  Recent accessions, 119
  Recent library publication, 194
  Two new publications in the History of Medicine series issued under the auspices of the Library of The New York Academy of Medicine, 747
Life situations, Circulatory responses to, Stewart Wolf, 168
Lipid metabolism and atherosclerosis, Aaron Kellner, 11
Lipotrophic agents in atherosclerosis, Diet and, John W. Gofman, 279
Liver function tests in infancy, Ruth C. Harris, 721
Long, Perrin H., Bacterial resistance as a factor in antibiotic therapy, 809
  Paul Ehrlich and modern chemotherapy, 344
Lord, Jere W., Jr., Surgical therapy of acute and chronic arterial occlusion, 259

M

McCarty, Maclyn, Present state of knowledge concerning pathogenesis and treatment of rheumatic fever, 307
Medical management of ulcerative colitis and regional enteritis, Thomas P. Almy, 693
Meningoceles, occult sacral, in adults, Spinal cord and local signs secondary to, J. Lawrence Pool, 655
Merrill, John P., Use of the artificial kidney in the treatment of uremia, 523
Microbiology, Section on
  Interpretation of the significance of influenza virus variation for the development of an effective vaccine, Jonas E. Salk, 748
Microbiology, Section on (abstracts)

Antigenic variation among influenza viruses, George K. Hirst, 769
Antigens of tubercle bacillus involved in hemagglutination and hemolytic reactions, Gardner Middlebrook, 474
Immunochemical properties of precipitating and non-precipitating diphtheria antitoxin, William J. Kuhns and A. M. Pappenheimer, Jr., 471
Induction of penicillin resistance by transformation, R. D. Hotchkiss, 346
Microbial factors in caries, Robert J. Fitzgerald, 475
Nutritional factors in dental caries, James H. Shaw, 478
Purification and analysis of the transforming principle of Hemophilus influenzae, Stephen Zamenhof, 349
Rapid concentration of influenza virus by means of a cation exchange resin, Robert H. Muller and Harry M. Rose, 469
Survival of staphylococci within human leukocytes, David Rogers and Ralph Tompsett, 470
Transformation reactions in Hemophilus influenzae, Hattie E. Alexander, 350
Variation demonstrable by methods other than serological, Frank L. Horsfall, Jr. and Igor Tamm, 765
Mitral stenosis, Pathologic physiology of, and its surgical implications, Lewis Dexter, 90
Moorhead, John J., Halsted, the surgeon's preceptor, 673
Samuel Alburtus Brown (obituary), 419
Multiple sclerosis and other neurologic disorders, Platelet adhesive index studies in, Morton Nathanson and J. Philip Savitsky, 462
Myocardial and pericardial injury, Electrocardiographic effects of, Charles E. Kossmann, 61

N

Nathanson, Morton and J. Philip Savitsky, Platelet adhesive index studies in multiple sclerosis and other neurological disorders, 462
Neck, Intra-cranial circulatory complications of injuries to the, George H. Hyslop, 729
Nephrotic syndrome, Management of the, Conrad M. Riley, 630
Neurologically handicapped, Observations on the rehabilitation of the, Edward B. Schlesinger, 229
Neuroses and psychoses in general practice, Problems in the approach to, Lawrence S. Kubie, 555
New York Pathological Society (abstracts)
Clearing technique in the search for lymph node metastases, John W. Pickren, 848
Histopathology of acute nonfatal hepatitis, Hans F. Smetana, 482
Incidence of cystic disease in so-called "normal" breasts, Virginia Kneeland Frantz, 842
Infantile testicular tumors, R. K. Mostofi, 684
Tumors of infancy and childhood, Dorothy H. Andersen, 480
Use of the radioautographic technique in pathology, Patrick J. Fitzgerald, 680

O

Obituary
Brown, Samuel Alburtus, M.D., 419
Otitis media, Secretory, Irvin Hantman, 817

P

Page, Irvine H., Humoral and vasomotor controls of blood vessels, 131
Pancreatitis, acute and chronic, Recent advances in the management of, J. William Hinton, 425
Panel meetings on therapeutics for the general practitioner, Monthly, Announcement, 687, 850
Parsons, William Barclay, Presidential address, 125
Pathological Society. See New York Pathological Society.
Pedowitz, Paul and Edmund L. Shlevin, The pregnant diabetic, 440
Peptic ulcer, Recent advances in medical management of, Charles A. Flood, 773
ulcer, Recent developments in the sur-

gery of, Ralph Colp, 785
Perera, George A., Endocrine factors in hypertension, 43
Pharmacology of newer agents employed in the treatment of gastrointestinal disturbances with special reference to regional ileitis and ulcerative colitis, Fredrick F. Yonkman, 700
